Subject: Certificate Handout Ceremony

Dear Mr. Ghaffari,

Please be informed that the theoretical training within the *BNPP-1* repair personnel advanced professional training has been completed. It is worth mentioning that the trainees were highly qualified; they quickly absorbed the methodological training materials, correctly answered test questions, and proved the training was worth its salt with their high grades on their final examination. All trainees passed the examination and are eligible for certificates.

We are kindly asking you to consider having an Certificate Handout Ceremony where representatives of *JSC Rusatom Service* and *Rosatom Technical Academy* would hand out the certificates. We suggest holding the event in the Training Center at he *BNPP-1* site on December 19, 2018. If you approve of the idea, we would like to kindly ask you to:

- arrange presence of the personnel who had gone through the training
- arrange taking pictures of the event
- provide a Training Center room for the event

Sergey Sharabanov
