

6th annual
NUCLEAR POWER
ASIA 2015

Overcoming new nuclear development challenges for emerging countries

27-28 January 2015, Kuala Lumpur Malaysia

INVITATION AS A SPEAKER FOR NUCLEAR POWER ASIA 2015

Dear Mr. Naser Rastkhah, Head, INRA

With great pleasure, I am writing to invite you as one of our key speakers at the upcoming **6th Annual Nuclear Power Asia**, taking place on **27-28 January, 2015** in **Kuala Lumpur, Malaysia**.

The past 5 editions of Nuclear Power Asia have gathered over 1200 nuclear industry professionals as advisors, speakers and conference delegates and the latest edition in Hanoi was a resound success with 291 participants from 29 countries.

The new edition of the conference will focus on key challenges facing emerging nuclear power countries in Asia and worldwide. This year's two-track programme will present insights on top priority issues including infrastructure development, technology assessment, public acceptance, industrial and human resources development etc. We are expecting 300+ participants from nuclear energy authorities, energy commissions, NEPIOs, international developers/operators, technology suppliers, legal and engineering experts etc. to attend the event next January.

We would like to invite you as a key speaker and share your experience of nuclear power development. With your support, we are confident to provide governments and industry with another high quality platform, contributing further the development of the nuclear power industry.

Please don't hesitate to contact me at **+65 9320 5825** if you have any questions. I would be honoured if you could accept this invite and I sincerely look forward to your participation at the event.

Yours Sincerely,

Cathy Gu

Project Director – Nuclear Power Asia
