Dear Mr. Ghods,

Thank you for your letter concerning the reactor surveillance specimens. We have analysed our experience in this area, but we are able to perform proposed scope of work only partially. Usually we cooperate with UJV Rez in Czech Republic at project of surveillance specimens for our nuclear power plants.

When we contacted our partners in UJV Rez they informed us about your requirements to prepare offer on the same topic as you ask VUJE.

We discussed about cooperation VUJE - UJV Rez if they win this contract. It means we do not send our offer now.

Thank you very much for your requirements.

Sincerely yours

Mr. M. Ghods
General Director
