Mr. H. Ghaffari

Manager and Managing Director  
The Bushehr Nuclear Power Plant

On Amendments №25 – 2018  
from JSC Gidromash Holding

Dear Mr. Ghaffari,

We refer to the Contract for delivery of spare & replacement parts and reserve equipment for Bushehr NPP SP-BNPP-1-2018/309/1575-D dated September 2017 (The Contract).

Rusatom Service JSC expresses its gratitude for taking photos of equipment according to our letter No. 309 / 03-01 / 2584 dd 18.04.2018.

In the course of work on identification of equipment at Bushehr-1 NPP based on the photos of the nameplates of the pump, we found out that all of them were manufactured at JSC HMS Livgidromash for Bushehr-1 NPP in compliance with the 4<sup>th</sup> safety class on HII-001-97. The photos confirm this as this information is provided on the nameplates during the manufacturing of the equipment.

According to the information from JSC Gidromash Holding, the parent organization of the manufacturer, this equipment can be manufactured for NPPs only with 4<sup>th</sup> safety class according to HII-001-97, which does not prohibit its use in systems and nodes of the upper level of the 2nd and 3rd class security.

In case of Customer's refusal to receive these pumps of the 4<sup>th</sup> safety class, these items must be excluded from the Contract.

If Customer confirms the delivery of the pumps of the 4<sup>th</sup> class, prices will be reduced by 10% from the previously proposed.

Information on the amendments is indicated in the Amendments No. 25 (Appendix 1).
