

06 SEP 2017 № 4/03-06/13776

Mr. H. Derakhshandeh
Deputy Managing Director for Technical and Engineering
Nuclear Power Production & Development Co. of Iran

Mr. M. Ghods
General Director
TAVANA Co. of Iran

Dear Mr. H. Derakhshandeh,
Dear Mr. M. Ghods,

According to the letter No. LTR-6000-7434 dated August 28, 2017 let me provide you with the fuel integrity analysis for BNPP-1.

Additionally to our letter No. 4/03-06/11664 dated 31.07.2017 we can summarize the following:

1. On July 31, 2017 we expected one leaking fuel rod in the core.
2. No new leaking fuel rods were appeared during July 2017.
3. The BNPP-1 can be safely operated with currently coolant activity levels (much less than the operation limit).

Attachment: Fuel integrity analysis on 5 pages (only in Russian).

Sincerely Yours,

A. Dolgov
Director of the R&D Department

06.09.2017
