Subject: Information Transfer

Dear Mr. Ghaffari,

Please find attached to this letter the document containing Letter No. 37-12-304/4210 dd 02.07.2018 from JSC TSKBM. In the said letter, the original equipment manufacturer recommends performing capillary testing of the weld joints of the pipelines of the autonomous circuit and the supply system of cooling water for the seal units of the Reactor Coolant Pump Sets Nos. 1-4. The said testing is to be performed during the next PPM.

We are kindly asking you to bear the abovementioned recommendations in mind when planning the 2019 PPM.

Attachment: Letter No. 37-12-304/4210 dd 02.07.2018 from JSC TSKBM and the attached file (two pages)
